Cross-sectional Height:

Between 1.735 inches and 1.740 inches

Center Hole Diameter:

Between 0.819 inches and 0.820 inches

Peripheral Diameter:

Between 1.621 inches and 1.623 inches

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-225/9 t735 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

+c+77-1063 cl 2 ty2 fscm 36659 mfr ref single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
