Cross Sectional Shape:

Hollow bulb

Fabrication Method:

Solid

Cross Section Inside Diameter:

0.320 inches

Cross-sectional Thickness:

0.100 inches

Cross-sectional Height:

0.380 inches

Cross-sectional Width:

1.195 inches

Construction:

Solid

Material:

Plastic polyethylene terephthalate and rubber silicone class q

Material Specification:

C-23-1195, gr 50 fscm 36659 mfr ref 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
