Cross Sectional Shape:

Delta

Cross Section Outside Diameter:

Between 0.350 inches and 0.352 inches

Cross-sectional Height:

Between 0.065 inches and 0.070 inches

Center Hole Diameter:

Between 0.280 inches and 0.282 inches

Angle:

30.0 degrees

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams 3651 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
