Cross Sectional Shape:

Circular

Fabrication Method:

Solid

Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

Not rated

Length:

15.750 inches

Cross Section Outside Diameter:

0.125 inches

Environmental Protection:

Oil resistant

Special Features:

0.125 inches by 45 degrees cut on each end to form a joint

Color:

Black

Material:

Rubber, synthetic

Material:

Rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
