Cross Sectional Shape:

Metal and nonmetallic materials

Overall Length:

24.656 inches

Overall Width:

2.063 inches

Cross-sectional Thickness:

Between 0.050 inches and 0.060 inches

Special Features:

Graphite lubrication material

Material:

Asbestos and steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
