Accommodated Shaft Diameter:

0.562 inches

Seal Width:

Between 0.296 inches and 0.328 inches

Accommodated Shaft Maximum Rated Speed:

3000 feet per minute

Case Style:

Square

Housing Bore Diameter:

1.250 inches

Sealing Element Style:

Angular

Material:

Steel case

Surface Treatment:

Cadmium case

Surface Treatment Specification:

Qq-r-416 type 1 cl 3 federal specification single treatment response case

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
