Cross Sectional Shape:

Cup

Cross-sectional Thickness:

0.0625 inches

Cross-sectional Height:

0.350 inches

Center Hole Diameter:

Between 4.660 inches and 4.670 inches

Peripheral Diameter:

Between 5.380 inches and 5.389 inches

Material:

Steel comp 302 or steel comp 304

Material Specification:

Qq-s-766 cond a federal specification all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
