Cross Sectional Shape:

Spherical

Cross Section Inside Diameter:

Between 1.750 inches and 1.751 inches

Cross Section Outside Diameter:

Between 1.936 inches and 1.937 inches

Cross-sectional Length:

Between 2.553 inches and 2.558 inches

Material:

Plastic tetrafluoroethylene

Material Specification:

Tf-7 fscm 31708 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A527p0
