Cross Sectional Shape:

Square

Fabrication Method:

Laminated

Tempurature Rating:

-250.0 degrees fahrenheit

Length:

234.000 inches

Cross-sectional Height:

0.500 inches

Cross-sectional Width:

0.500 inches

Friction Treatment Material:

Rubber, synthetic

Lubrication Material:

Mineral oil and braid, nylon

Material:

Rubber, natural and cotton duck

Material:

Rubber polyisoprene natural class nr and cotton

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
