**Cross Sectional Shape:**

Square

**Fabrication Method:**

Laminated

**Tempurature Rating:**

-250.0 degrees fahrenheit

**Length:**

234.000 inches

**Cross-sectional Height:**

0.500 inches

**Cross-sectional Width:**

0.500 inches

**Friction Treatment Material:**

Rubber, synthetic

**Lubrication Material:**

Mineral oil and braid, nylon

**Material:**

Rubber, natural and cotton duck

**Material:**

Rubber polyisoprene natural class nr and cotton

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A26800
