Cross Sectional Shape:

Square

Fabrication Method:

Solid

Cross-sectional Height:

0.250 inches

Cross-sectional Width:

0.250 inches

Lubrication Material:

Oil and graphite

Material:

Metal, babbitt

Material:

Tin alloy or lead alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
