Cross Sectional Shape:

Beveled-square base

Fabrication Method:

Solid

Minor Width:

0.578 inches

Cross-sectional Thickness:

0.250 inches

Cross-sectional Height:

0.625 inches

Cross-sectional Width:

0.875 inches

Construction:

Solid

Material:

Rubber synthetic

Material Specification:

33r99, fscm 81316 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
