Cross Sectional Shape:

Cup

Cross-sectional Thickness:

Between 0.035 inches and 0.040 inches

Cross-sectional Height:

Between 0.135 inches and 0.140 inches

Center Hole Diameter:

Between 1.621 inches and 1.634 inches

Peripheral Diameter:

1.785 inches

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams 3651 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
