Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.177 inches and 0.181 inches

Center Hole Diameter:

Between 0.319 inches and 0.321 inches

Peripheral Diameter:

Between 0.667 inches and 0.668 inches

Angle:

10.0 degrees

Criticality Code Justification:

Advn and adyu

Special Features:

32 microinch finish on center hole surface, 63 microinch finish on all other surfaces

Material:

Copper alloy

Fsc Application Data:

Recoil mech. 155mm gun

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
