Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.245 inches and 0.250 inches

Center Hole Diameter:

Between 0.377 inches and 0.378 inches

Peripheral Diameter:

Between 0.872 inches and 0.874 inches

Angle:

15.0 degrees

Special Features:

63 microinch finish on peripheral and center hole surfaces, 125 microinch finish on all other surfaces

Material:

Copper alloy

Fsc Application Data:

Recoil mech. 155mm gun

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
