Cross Sectional Shape:

Square w/ center aperture

Fabrication Method:

Solid

Min. Tensile Strength (psi):

Not rated

Tempurature Rating:

Not rated

Length:

Any acceptable

Cross Section Inside Diameter:

0.094 inches

Cross-sectional Height:

0.188 inches

Cross-sectional Width:

0.188 inches

Friction Treatment Material:

Any acceptable

Lubrication Material:

Any acceptable

Material:

Rubber, synthetic

Material:

Rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
