Cross Sectional Shape:

Square

Fabrication Method:

Braided

Min. Tensile Strength (psi):

Not rated

Tempurature Rating:

Not rated

Length:

24.000 inches

Cross-sectional Height:

0.188 inches

Cross-sectional Width:

0.188 inches

Material:

Asbestos yarn

Material:

Asbestos

Reference Number Differentiating Characteristics:

As differentiated by processing for use w/liquid oxygen

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
