Cross Sectional Shape:

Cross Sectional Shape:
Square
Fabrication Method:
Braided
Min. Tensile Strength (psi):
Not rated
Tempurature Rating:
Not rated
Length:
24.000 inches
Cross-sectional Height:
0.188 inches
Cross-sectional Width:
0.188 inches
Material:
Asbestos yarn
Material:
Asbestos
Reference Number Differentiating Characteristics:
As differentiated by processing for use w/liquid oxygen
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No

Fiig: A26800
