Cross Sectional Shape:

Cup

Cross-sectional Thickness:

Between 0.040 inches and 0.050 inches

Cross-sectional Height:

Between 0.125 inches and 0.145 inches

Center Hole Diameter:

Between 1.007 inches and 1.017 inches

Peripheral Diameter:

Between 1.220 inches and 1.230 inches

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
