Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

1200 pounds per square inch

Width:

Between 39.000 inches and 54.000 inches

Thickness:

0.375 inches

Length:

Any acceptable

Surface Condition:

Smooth

Strengthening Feature Material:

Cloth, cotton

Environmental Protection:

Oil resistant and water resistant

Strengthening Feature:

Insert

Insert Quantity:

6

Material:

Rubber, hh-p-61

Material:

Rubber synthetic and cotton

Material Specification:

Hh-p-61 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
