Cross Section Inside Diameter:

7.562 inches

Cross Section Outside Diameter:

9.250 inches

Cross-sectional Height:

Between 0.240 inches and 0.281 inches

Joint Type:

Scarf-bearing surface packing

Cut Type:

Rectangular packing

Angle:

Between 62.5 degrees and 66.0 degrees

Material:

Wool comp 16r2 or wool comp 16r3

Material Specification:

C-f-206, type 1, cl 16r2 federal specification 1st material response or c-f-206, type 1, cl 16r3 federal specification 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
