Cross Sectional Shape:

Circular

Fabrication Method:

Woven

Min. Tensile Strength (psi):

Not rated

Tempurature Rating:

Not rated

Length:

Any acceptable

Cross Section Outside Diameter:

0.500 inches

Friction Treatment Material:

Rubber

Lubrication Material:

Glycerin and graphite

Material:

Cotton duck and rubber, synthetic or natural

Material:

Cotton and rubber natural or rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
