**Cross Sectional Shape:**

O-ring

**Cross-sectional Height:**

0.125 inches

**Center Hole Diameter:**

1.625 inches

**Material:**

Rubber synthetic

**Reference Number Differentiating Characteristics:**

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A032a0
