Cross-sectional Height:

Between 0.048 inches and 0.058 inches

End Application:

Aircraft model c135

Product Name:

Seal assembly-access door, lower fwd body

Special Features:

Consist of cloth w/dacron triot mesh w/silicone rubber top and bottom; has 2 nylon jacketed cres cables per mil-w-5424, or optional galvanized cable per mil-w-1511a, jacketed w/flexible nylon plastic per mil-n-18352; cable diameter 1/16 in od; cable and nylon 3/32 in od

Material:

Rubber silicone class q both sides

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
