**Cross-sectional Height:**

Between 0.048 inches and 0.058 inches

**End Application:**

Aircraft model c135

**Product Name:**

Seal assembly-access door, lower fwd body

**Special Features:**

Consist of cloth w/dacron triot mesh w/silicone rubber top and bottom; has 2 nylon jacketed cres cables per mil-w-5424, or optional galvanized cable per mil-w-1511a, jacketed w/flexible nylon plastic per mil-n-18352; cable diameter 1/16 in od; cable and nylon 3/32 in od

**Material:**

Rubber silicone class q both sides

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A032a0
