#### **Cross Sectional Shape:**

Delta

**Cross Section Outside Diameter:** 

1.093 inches

### **Cross-sectional Height:**

Between 0.060 inches and 0.070 inches

#### Center Hole Diameter:

Between 0.9865 inches and 0.9945 inches

#### Angle:

Between 43.0 degrees and 47.0 degrees

#### Material:

Plastic polyhexamethylene amide

#### Material Specification:

Ams 3617 assn standard single material response

#### Shelf Life:

N/a

#### Unit Of Measure:

Demilitarization:

## No
