Cross Sectional Shape:

Delta

Cross Section Outside Diameter:

1.598 inches

Cross-sectional Height:

Between 0.065 inches and 0.075 inches

Center Hole Diameter:

Between 1.4865 inches and 1.4945 inches

Angle:

Between 43.0 degrees and 47.0 degrees

Material:

Plastic polyhexamethylene amide

Material Specification:

Ams 3617 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
