Cross Sectional Shape:

Delta

Cross Section Outside Diameter:

1.343 inches

Cross-sectional Height:

Between 0.060 inches and 0.070 inches

Center Hole Diameter:

Between 1.2365 inches and 1.2445 inches

Angle:

Between 43.0 degrees and 47.0 degrees

Material:

Plastic polyhexamethylene amide

Material Specification:

Ams 3617 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
