**Cross Sectional Shape:**

O-ring

**Tempurature Rating:**

-65.0 degrees fahrenheit and 225.0 degrees fahrenheit

**Cross-sectional Height:**

Between 0.067 inches and 0.073 inches

**Center Hole Diameter:**

Between 0.484 inches and 0.494 inches

**Special Features:**

To be permanently marked with two red dots or stripes, so placed that they will be easily distinguishable

**Material:**

Rubber

**Material Specification:**

1120 fscm 91265 mfr ref single material response or dms1734 fscm 99166 mfr ref single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A032a0
