Cross Sectional Shape:

O-ring

Tempurature Rating:

-65.0 degrees fahrenheit and 225.0 degrees fahrenheit

Cross-sectional Height:

Between 0.067 inches and 0.073 inches

Center Hole Diameter:

Between 0.484 inches and 0.494 inches

Special Features:

To be permanently marked with two red dots or stripes, so placed that they will be easily distinguishable

Material:

Rubber

Material Specification:

1120 fscm 91265 mfr ref single material response or dms1734 fscm 99166 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
