Accommodated Shaft Diameter:

1.250 inches

Seal Width:

Between 0.485 inches and 0.515 inches

Accommodated Shaft Maximum Rated Speed:

2000 feet per minute

Case Style:

Square

Housing Bore Diameter:

2.062 inches

Sealing Element Style:

Angular

Material:

Steel case

Material Specification:

Fscm 79150 mfr ref single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
