Overall Width:

1.750 inches

Hardness Rating:

60.0 shore durometer a

Material:

Rubber butadiene-acrylonitrile class nbr

Material Specification:

Mil-std-417, type s, class sb, grade 612beff military standard single material response

Fsc Application Data:

Missile guidance set, missile component

Departure From Cited Document:

As modified by pac matl

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0

Mil-std (military Standard):

Mil-std-417 spec.
