**Cross Sectional Shape:**

Single lip

**Accommodated Shaft Diameter:**

1.375 inches

**Seal Width:**

Between 0.192 inches and 0.197 inches

**Housing Bore Diameter:**

1.750 inches

**Construction:**

Solid

**Material:**

Plastic polytetrafluoroethylene sealing element

**Material Specification:**

Ams 3651 assn standard single material response sealing element

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A032a0
