Cross Sectional Shape:

Single lip

Accommodated Shaft Diameter:

1.375 inches

Seal Width:

Between 0.192 inches and 0.197 inches

Housing Bore Diameter:

1.750 inches

Construction:

Solid

Material:

Plastic polytetrafluoroethylene sealing element

Material Specification:

Ams 3651 assn standard single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
