Cross Sectional Shape:

U

Fabrication Method:

Solid

Aperture Width:

Between 1.186 inches and 1.196 inches

Aperture Length:

Between 2.842 inches and 2.852 inches

Cross-sectional Height:

Between 0.390 inches and 0.410 inches

Cross-sectional Width:

Between 0.554 inches and 0.564 inches

Smooth Finish Surface Location:

External

Construction:

Solid

Material:

Rubber chloroprene class cr

Style Designator:

Oval

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
