Cross Sectional Shape:

V

Fabrication Method:

Solid

Aperture Width:

Between 1.290 inches and 1.300 inches

Aperture Length:

Between 2.946 inches and 2.956 inches

Cross-sectional Height:

Between 0.480 inches and 0.500 inches

Cross-sectional Width:

Between 0.450 inches and 0.460 inches

Smooth Finish Surface Location:

External

Construction:

Solid

Material:

Rubber chloroprene class cr

Style Designator:

Oval

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
