Cross-sectional Height:
Between 0.453 inches and 0.485 inches
Center Hole Diameter:
Between 0.703 inches and 0.708 inches
Peripheral Diameter:
Between 1.062 inches and 1.067 inches
Special Features:
Tapered counterbore
Material:
Aluminum alloy 2024
Material Specification:
Qq-a-225/6, temper t4 or t6 federal specification single material response
Surface Treatment:
Cadmium and chromate
Surface Treatment Specification:
Qq-p-416, cl 3 federal specification single treatment response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
