Cross-sectional Height:

Between 0.453 inches and 0.485 inches

Center Hole Diameter:

Between 0.703 inches and 0.708 inches

Peripheral Diameter:

Between 1.062 inches and 1.067 inches

Special Features:

Tapered counterbore

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, temper t4 or t6 federal specification single material response

Surface Treatment:

Cadmium and chromate

Surface Treatment Specification:

Qq-p-416, cl 3 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
