Cross Sectional Shape:

Single lip

Accommodated Shaft Diameter:

2.781 inches

Seal Width:

Between 0.406 inches and 0.468 inches

Housing Bore Diameter:

3.500 inches

Construction:

Solid

Material:

Rubber butadiene-acrylonitrile class nbr sealing element

Material Specification:

Mil-std-417, ty s, gr810a1c1e3k1z military standard single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0

Mil-std (military Standard):

Mil-std-417 spec.
