Accommodated Shaft Diameter:

Between 9.000 inches and 9.020 inches

Seal Width:

0.688 inches

Housing Bore Diameter:

10.250 inches

Construction:

Solid

Material:

Rubber butadiene-acrylonitrile class nbr sealing element

Material Specification:

417, ty s, cl sb, gr 515abe3f1 military standard single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
