Cross Sectional Shape:

Plain rectangular, straight face

Inside Diameter:

Between 15.753 inches and 15.755 inches

Ring Style:

Contracting concentric

Radial Wall Thickness:

1.6860 inches

Overall Width:

Between 0.9930 inches and 0.9950 inches

Material:

Copper alloy

Material Specification:

B11g29a mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A08400
