Cross Sectional Shape:

Spherical

Cross Section Inside Diameter:

Between 5.380 inches and 5.440 inches

Cross Section Outside Diameter:

Between 5.410 inches and 5.536 inches

Cross-sectional Length:

Between 3.125 inches and 3.375 inches

Material:

Silicon

Material Specification:

204-070-190-1, 97499 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A527p0
