Cross Sectional Shape:

Rectangular

Fabrication Method:

Solid

Nonmetallic Hardness Rating:

Not rated

Min. Tensile Strength (psi):

2000 pounds per square inch

Tempurature Rating:

Not rated

Length:

Any acceptable

Surface Condition:

Smooth

Cross-sectional Height:

4.000 inches

Cross-sectional Width:

0.187 inches

Environmental Protection:

Light

Color:

Any acceptable

Material:

Rubber, synthetic

Material:

Rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
