Cross Sectional Shape:

Single lip

Accommodated Shaft Diameter:

Between 1.920 inches and 1.995 inches

Seal Width:

Between 0.235 inches and 0.265 inches

Housing Bore Diameter:

Between 3.005 inches and 3.040 inches

Construction:

Solid

Material:

Stainless steel spring

Reference Number Differentiating Characteristics:

As differentiated by army missile command part no 11040831-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
