Fabrication Method:

Solid

Overall Length:

7.550 inches

Construction:

Split

Special Features:

Molded in the shape of an arc of a circle having a 25.500 to 26.000 in. Radius

Material:

Rubber butadiene-acrylonitrile class nbr

Material Specification:

Ams 3227, gr 60 assn standard single material response

Style Designator:

Strip

Fsc Application Data:

Aircraft fuselage bulkhead seal installation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
