Cross Sectional Shape:

O-ring

Cross-sectional Height:

0.070 inches

Center Hole Diameter:

0.426 inches

Hardness Rating:

75.0 shore durometer a

Material:

Rubber fluorocarbon class fpm

Material Specification:

Ams-7278 assn standard single material response

Fsc Application Data:

Jet engine, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
