Cross Sectional Shape:

Rectangular metal

Hole Diameter:

0.187 inches

Center To Center Distance Between Bolt Holes Along Length:

4.375 inches

Cross-sectional Thickness:

0.040 inches

Material:

Silicon

Material Specification:

Qq-a-250/2 federal specification single material response

Fsc Application Data:

Camera sets television airborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
