Cross Sectional Shape:

Single lip

Accommodated Shaft Diameter:

Between 36.460 inches and 36.470 inches

Seal Width:

1.000 inches

Housing Bore Diameter:

Between 38.460 inches and 38.470 inches

Construction:

Split

Material:

Stainless steel spring

Material Specification:

Astm d2000, 2bc910e3 assn standard single material response sealing element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
