Cross-sectional Height:

0.048 inches

Center Hole Diameter:

Between 0.812 inches and 0.830 inches

Peripheral Diameter:

Between 0.908 inches and 0.942 inches

Material:

Rubber fluorocarbon class fpm

Material Specification:

Ams 7279 assn standard single material response

Fsc Application Data:

Hydraulic fuel pump instl, engine, acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
