Cross Sectional Shape:

Metal and synthetic rubber

Hole Diameter:

Between 0.289 inches and 0.296 inches

Aperture Diameter:

4.530 inches

Outside Corner Radius:

0.400 inches

Cross-sectional Thickness:

0.070 inches

Gage Ring Thickness:

0.030 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
